

Isaiah House Transportation Agreement

Isaiah House men are not allowed to have their own vehicles when they enter as full-time residents. A vehicle may be allowed with Director's permission, at a later date under special conditions.

I understand Isaiah House is not a state or municipal agency and therefore does not have a government blanket of automobile insurance on each vehicle in which I might travel. I understand that the risk I take riding with staff or residents in their personal vehicles is the same as I take by riding with other friends and family and that Isaiah House has no liability.

I have read the agreement and understand the contents:

Resident Signature: _____ Date: _____

Staff Signature: _____ Date: _____

I understand that by transporting other residents I take the same responsibility I would when picking up friends or family to accompany me to a destination. I understand that if an accident should occur, Isaiah House has no fault, blame or liability for the occurrence. Any damage, repair, medical payments for me and other passengers, or property damage would be applied to my personal auto insurance as would be customary in any other driving situation.

I have read the agreement and understand the contents:

Resident Signature: _____ Date: _____

Staff Signature: _____ Date: _____
